1979 Avanti For Sale

This car was owned by the late Harry Clark. There is an appraisal from 2015 available for this vehicle. There are many collectable items that my father purchased over the years. All will go with the car. It currently has a Corvette steering wheel installed (he liked the "feel" of that one better); however, the original Avanti steering wheel is in the trunk of the car! The car has had a crate engine installed.

We are firm with the price of \$16,500.
